YOGAPSYCHOLOGY ON (SELF-)MANAGEMENT AND LEADERSHIP!

Modified Layout: 7 Study houses which contain the spiritual wisdom of cultures and civilizations, historical and contemporary economic problems / injustices, essence of a common World-Ethos, without the unhealthy demand of growth, expansion, exploitation and abuse of fellow human beings, creatures, nature, etc. and the economic benefits of a decentralized humanistic economy

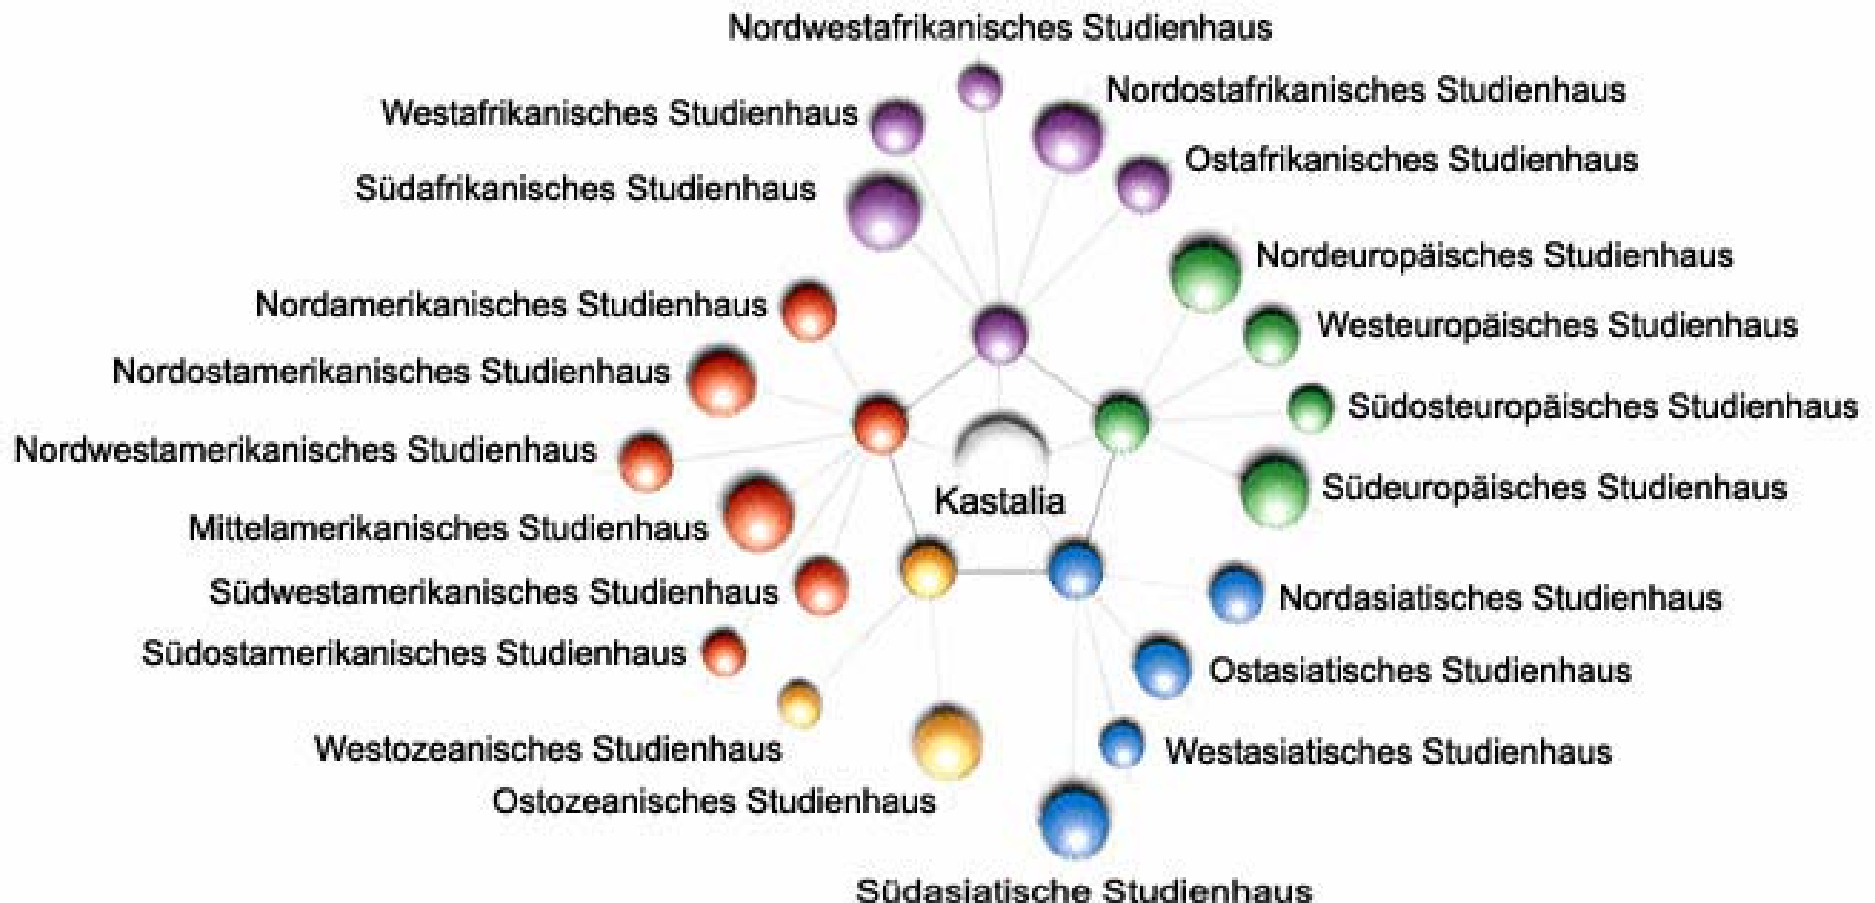

Entrance to core, the actual Academy and to the Auditorium Maximum, the other classrooms, libraries, research and development facilities

4 new apartment / hotel buildings and more fairgrounds on the ground floor (including visitor classrooms, restaurants, shops, etc.)

YOGAPSYCHOLOGY ON (SELF-)MANAGEMENT AND LEADERSHIP!

The study houses of spiritual wisdom and cultures explore the essence of the common World-Ethos. The Academy is build in accordance with all these principles: "Ethical Evolution is a research assignment, and has nothing to do with a ritualised, institutionalized blind faith!"

YOGAPSYCHOLOGY ON (SELF-)MANAGEMENT AND LEADERSHIP!

Objective and Philosophy: Every society and every culture, whether primitive or complex, requires an ethical intelligentsia in order to solve their social duties satisfactorily. Sometimes it shows itself in the form of senior intelligence and or in the form of a Nobel laureate. In all cases, however, they carry regardless of their sophistication / complexity the same function of guidance:

What are the 3 most important things in a society? Education, education and education:

This academy is to be understood as an institute of worldviews, a Paradigm Institute. In the inner buildings we illustrate the history of worldwide economic problems, alternatives, solutions and the benefits of a humanistic economy, i.e. a responsible banking system.

Modified : For the Guinness Book of Records: The spherical central building becomes a rotating globe: It will be covered with the largest rotating globe of the world to symbolize the common problems and a common World-Ethos.

The central building sphere is covered with a semitransparent rotating globe (which is attached to the already existing window cleaning system). Within the sphere are more classrooms, offices, research and development facilities located, a VIP guest area / meeting rooms to receive government officials and other VIP guests.
